

Saumitra Joshi

Senior Software Development Engineer | saumitra1joshi@gmail.com | (+91) 7042334712 | Bangalore, Karnataka

[Linkedin](#) | [Github](#) | [Portfolio](#) | [Medium](#)

Skills

- Programming Languages:** Python, Golang, JavaScript, TypeScript, SQL, Powershell, HTML, CSS
- Technologies & Tools:** FastAPI, Flask, Django, React, Angular, Node.js, Docker, Kubernetes, Redis, Kafka, MySQL, PostgreSQL, NoSQL, MongoDB, Neo4j, Grafana, Websocket, Terraform, REST APIs
- AI Tools:** LangGraph, LangChain, n8n, MCP, Vector DBs (RAG), FAISS, ChromaDB, LangSmith, Langfuse, PageIndex, OpenCode
- Cloud:** Azure, AWS, Google Cloud
- Domains:** Full Stack Development, Cloud Engineering, Agentic AI Systems, Multi-Agent Architectures, Generative AI, Distributed Systems, Scalable System Design, Microservices, DevOps, CI/CD, Clean Code Architecture, Domain Driven Design

Work Experience (4+ Years)

Brillio | Senior Software Development Engineer (CTO Department) | Bangalore Jun 2022 - Present

- Led a team of 5 engineers to build an Agent Marketplace platform with approval based onboarding and resilient multipart uploads of multi-GB Docker artifacts to **Blob Storage**, reducing upload failures by 99% and accelerating deployment turnaround by 60%.
- Engineered **FastAPI** APIs for CloudOptics, an in-house multi-tenant Cloud FinOps platform used by Fortune 1000 clients, using **Azure SDK**, **AWS Boto3**, and **Apache Kafka** to process millions of cloud cost and inventory events daily with 99.9% uptime.
- Architected ADAM FinBot, a **hierarchical multi-agent AI** analytics chatbot using **LangGraph** and **LangChain**, enabling natural language querying, automated SQL generation, forecasting, and financial reporting, reducing time to insight by 70%.
- Integrated **Redis** based **caching** for high-latency inventory APIs with scheduled refreshes, reducing response times by 99%.
- Orchestrated cloud-native microservices on **Azure AKS** across 50+ multi-node clusters handling 1M+ daily requests, enabling auto-scaling, load balancing, rolling updates, and high availability, improving system resilience and reducing downtime by 60%.
- Implemented high-throughput Azure Wastage Tracking APIs using nested multi-threading, **Azure Service Bus**, and **Event Hubs** for asynchronous data processing, reducing response time from 4 minutes to under 10 seconds.
- Built an AI-driven BI migration platform using **fine-tuned LLMs**, **human-in-the-loop** workflows for metadata extraction, lineage analysis, and dependency-aware orchestration, reducing redevelopment effort by 80% and accelerating migration timelines by 65%.
- Developed an agentic AI-driven SOC platform by using **multi-agent** workflows for autonomous threat correlation, alert enrichment, and incident triaging, decreasing manual investigation effort by 75% and improving mean time to response (MTTR) by 90%.

London Strategy and Consulting Group | Data Science Intern | Remote Oct 2020 - Feb 2021

- Engineered distributed data preprocessing pipelines on **AWS EMR** to process 140+ GB of deeply nested JSON data, increasing large-scale transformation throughput by 65%.
- Applied time-triggered **CRON jobs** using **AWS Lambda** and **EC2** for cost data updation and account onboarding with automatic shutdown upon completion, reducing operational expenses by \$2000 per month.

Key Projects

BrilliiAI | Full Stack, Agentic AI Sep 2025 - Dec 2025

- Architected BrilliiAI, a **RAG-based enterprise AI** assistant with a **React** Frontend and **Azure AI Search** for natural language querying of HR policies and knowledge bases, enabling 60% faster self-service resolution across 20K+ employee interactions.

ADAM Data Lineage | Full Stack, Agentic AI Jan 2026 - April 2026

- Built the ADAM Data Lineage platform using **Neo4j**, enterprise ontologies and Agentic AI to generate enterprise-scale knowledge graphs from 10K+ heterogeneous code and data assets, improving lineage discovery and impact analysis efficiency by 80%.

Education

• **SRM University, Chennai** | BTech | Computer Science Engineering | CGPA : 9.47/10 2018-2022

Certifications

- Google Cloud Associate Cloud Engineer (ACE)
- Azure Fundamentals(AZ-900)
- AWS Cloud Practitioner

Achievements

- **Employee Of the Quarter, Employee of the Month, Value Champion, Group Excellence Award** by Brillio
- **2nd Position** in Microsoft Gen AI Hackathon - 2024
- **Guest Speaker at NIT Trichy** on Azure Digital Twins and AWS IOT Twin Maker - 2023
